2014 Moonspell Cabernet Sauvignon

Harvested in the late portion of the season, we rely on both chemical analysis and flavor analysis to determine ripeness. The cabernet sauvignon clusters are hand harvested, hand sorted, destemmed and lightly crushed. We only use gravity to move the crushed grapes and juice. Fermentation times in 2014 averaged 23 days, with the shortest being 14 days and the longest being 30 days. No pressed wine is used in making the Moonspell. The free run juice is barrel aged for 18 months, thoughtfully blended by our winemaking staff and bottled.

The first sip reminds us of a 66 Lincoln convertible. Both are plush on the outside, honest and powerful on the inside.

The two have an incredible smooth ride. The 2014 Cabernet Sauvignon begins with aromas of plum and cedar with a wisp of cherry and peppercorn. The 66 Lincoln has that new car smell with just a hint of brake fluid. The '14 CS is lush blackberry, leather, plum and cassis in a smooth elegant package of medium tannins. The Lincoln has a 462 ci motor, a three speed tranny and tastes like painted metal.

The '14 CS finishes long and smooth with dark cherry and spice. The Lincoln drives smoothly into the sunset.
